

A caring team to help guide you

Anthem Health Guide is a concierge service for your health and health care

Health care benefits can seem complicated or confusing at times. To make the most of your benefits, you need to understand them. That is why you have a team of concierge-level customer service experts — ready to answer questions, advocate for your health and explain how to use your benefits. You can call a health guide or chat from your mobile device using our Sydney Health app.

Anthem health guides are here to help

Health guides are team members hand-picked for their kindness and understanding, their ability to listen and find a solution, all while also helping you feel less overwhelmed. They are experts at:

- **One-call resolution.** Our guides use advanced technology to see your whole health care picture while talking to you or advocating for you. They understand you are busy and may not have time for multiple conversations so they find the solution in the first call. Health guides take a comprehensive and personal approach, not only to help with your immediate needs but also anticipate future questions.
- **Advocating for you.** Health guides bring knowledge and experience to help make sure you are receiving the care you need. They will help break down barriers and eliminate “homework” for you, like calling providers about billing discrepancies, so you can focus on your health. If you need help finding a provider, guides can match you with an in-network provider that suits your needs. They can also help you save money by comparing costs for care at different hospitals.
- **Coordinating care for better health.** Many people see more than one doctor. Health guides can connect you to health professionals who will help coordinate with doctors and other members of your care team. They can remind you of important preventive care, and even help schedule appointments for you, when possible. They also have in-depth knowledge about the programs and preventive care services that are part of your benefits, and they work closely with nurses, health coaches and social workers to provide support uniquely suited to you.

Anthem Health Guide is here to give you personalized help when you need it most. That way you can focus on what is most important: your health.
